was a ceremonial libation of kumys in honor of the deities, prayers to them, the ceremonial drinking of the kumys from very large wooden goblets (choroon). After this there was feasting, games of various kinds, wrestling and so on. The attendants of the benevolent deities, the so-called ayyy-oyuuna ("white shamans"), were the masters of ceremonies at the festivities, although they died out among the Yakuts a long time ago, on account of the decline of this cult. By the end of the 19th century, there remained only legends of the white shamans.

In the cult of both the benevolent and malevolent deities, a part was played at one stage by the military aristocracy—the toyons; they were usually the organizers. In their legendary genealogies the toyons often derived their names from the great and powerful deities.

The ancient ysyakh retained elements of the clan cult, and according to legend they had been organized according to clan in former times. The Yakuts retained other survivals of the clan cult, but these were not very clearly marked. For example, they retained elements of totemism, pointed out in the literature of the 18th century (Stralenberg). Each clan had at one time its own patron in the form of an animal; the clan totems were, for example, ravens, swans, falcons, eagles, squirrels, and so on. The members of a particular clan not only refrained from slaughtering their patrons and eating them as food, but also avoided mentioning them by name.

Associated with the clan cult was the worship of fire, which is still retained by the Yakuts. Fire, according to Yakut superstition, is the purest element and it was forbidden to defile or dishonor it. Before each meal was started, pieces of food were thrown into the fire; it was splashed with milk, kumys and so on. All this was considered a sacrifice to the master of the fire (Uot-ichchite). There was often not only a single master, but as many as seven brothers. No images were made of them. The cult of ancestors among the Yakuts was poorly developed. Among the deceased it was only the shamans and certain outstanding people whose memory was honored, and whose spirits, for some reason, were feared.

Folklore

The folklore of the Yakuts was somewhat one-sided, but in certain regions it reached a high artistic level. Apart from the wealth of varied and deeply poetic oral folklore, singing was far less developed and instrumental music hardly existed at all; dancing was fairly poorly developed and monotonous. In the realm of graphic art, the Yakuts only developed the applied forms—finishing and ornamentation of articles in everyday use.

A whole series of different genres and forms stand out among the oral creation of the Yakuts. One of the most interesting is the epic poem—the olonkho.

This is a very ancient type of folk poetry and originated in the clan-tribal age. The language of the olonkho is archaic, and contains a large number of obsolete, almost incomprehensible words and expressions, though it is at the same time rich, colorful and imaginative; the vocabulary of the epic contains almost twice as many words as the everyday language. Consequently, these works are difficult to translate into other languages. The olonkho describes the exploits of mythical warriors (bootur) and their struggles against the evil spirits, the abaasy. There are whole cycles of these poems built round the images
